

# Preschool

# Enhancing lives

Our NextSense Preschool provide the best possible education for children who are deaf, hard of hearing, blind or have low vision, alongside their peers.

With high-quality preschool programs, located in a custom-designed building on the edge of the Macquarie University campus, we focus on the individual needs of each child. We place emphasis on working with you and your family to provide the best possible outcomes for your child.

Our expert teachers are experienced in early childhood education and inclusive practices. This means that we provide each and every child with meaningful experiences and encourage their unique curiosity. We celebrate cultural diversity, and nurture each child's sense of belonging, being and becoming.

NextSense Preschool follows the National Quality Framework (NQF) in line with the national regulations, laws and Early Years Learning Framework (EYLF).
